

Designed specifically for mobile maintenance vans and on-site repairs, the MRV 137 EVO R is a compact, ergonomically designed crimping machine which features an adjustable head for maximum ease of use. The rotating crimping head can be positioned vertically, horizontally or any position in between thanks to its innovative design and tool-free locking mechanism.

Suitable for 4 wire-spiral hoses up to 1¼" the MRV 137 EVO R is a versatile addition to any low-medium volume mobile repair and maintenance operation. The MRV 137 EVO R can be supplied with an optional ergonomic quick-change gun for die installation and removal, and can also be fitted with an optional die storage panel making it even more efficient to use.

The MRV 137 EVO R also has a wide range of die-sets available, ranging from size 6 through to size 51. Available die-set sizes correspond with the sizes listed in the official Manuli Hydraulics crimping charts, helping to ensure error-free crimping of Manuli hoses and fittings.
